GRANTERRA

The new tire generation for high-horsepower tractors

- Innovative tread design increases stubble damage resistance, enhancing durability.
- Deeper tread pattern enhances traction during field operations.
- VF PFO technology ensures soil protection through exceptional flexibility at low speeds and high-torque use.
- Wide tread design improves overall stability, reduces soil compaction and extends tire life.

GRANTERRA – available sizes

VF 540/65R30 158D/155E PFO*	VF 710/55R34 170D/167E PFO*

SST – Silent Speed Tire

Noise-reducing radial tire for fast, comfortable and quiet road use

- Noise reduction of up to 6 dB(A) in the cab maximises concentration and minimises stress.
- Reduced rolling resistance, long tire life and high damage resistance.
- Highest possible sustained speed capability of up to 70 km/h.

SST – available sizes

600/65R38 153D/156A8

650/65R38 157D/160A8

710/75R42 175D/172E

AC 65

Powerful wide tire for all-round applications

- Gentle ground handling in the field and on grassland.
- Comfortable on the road at high speeds up to 65 km/h.
- Very high transportation capability through large volume of air.
- Extremely economical due to excellent traction and low-wear treadcompound.

AC 65 – available sizes

HC 70

High capacity tire for multi-purpose tractors

- Low operating costs thanks to minimised slip and high load capacity.
- Comfortable, safe road performance, thanks to wide tire shoulders.
- Particularly gentle handling of grassland through rounded shoulder design and lug edges.

HC 70 - available sizes

AC 85

Advanced tire for multi-purpose tractors

- Radial tire with balanced characteristics for a wide applications range both on the field and on the road.
- Large ground contact area makes the tire ideal for grassland.
- Long service life due to wear-resistant tread compound.

AC 85 – available sizes

HC 1000

Narrow VF (Very High Flexion) tire for self-propelled sprayers and row crop applications

- More lugs provide better durability, longer service life and lower operation cost.
- Higher maximum speed (65 km/h) for less time on the road.
- Reduced soil compaction for higher loads due to lower inflation pressure.

HC 1000 – available sizes

HC 3000 & HC 3000 R

VF (Very High Flexion) harvester tire

- Less inflation pressure provides excellent traction efficiency.
- Higher load capacity for higher haulage efficiency.
- Larger footprint for better ground protection and reduced soil compaction.
- The VF CFO technology and wide footprint area decrease slippage which lowers fuel consumption.

HCM – High Capacity Municipal

All-purpose high capacity municipal tire

- Particularly suitable for municipal and road maintenance tractors and equipment. Designed for all-season use.
- High durability due to steel belted radial construction and unique design within its central area.
- Exceptional traction characteristics due to an innovative lug, designed to increase grip on a wide range of surfaces.
